A Message to MD Family of Funds Investors

Dear MD Family of Funds Investor:

As part of our commitment to keeping you informed about your MD Fund investments, please find attached the 2023 Annual Management Report of Fund Performance (MRFP). If you also opted to receive the fund's financial statements, they are included in this package.

The annual MRFP is a regulatory document that supplements the annual financial statements. The document includes a brief discussion and analysis of the fund's investment activities, performance and financial highlights, as well as an explanation of how the markets and overall asset mix have affected the fund.

The report is produced on a fund-by-fund basis, and your report only includes information on the funds you owned as of December 31, 2023.

If you have any questions regarding these documents, please contact your MD Advisor or the MD Trade Centre at 1 800 267-2332.

We thank you for your continued investment in the MD Family of Funds.

MD Financial Management Inc. wholly owns or has a majority interest in the MD Group of Companies. It provides financial products and services, is the fund manager for the MD Family of Funds and offers investment counselling services. For a detailed list of the MD Group of Companies, visit md.ca.

Commissions, trailing commissions, management fees and expenses all may be associated with mutual fund investments. The rate of return is used only to illustrate the effects of the compound growth rate and is not intended to reflect future values of the mutual fund or returns on investment in the mutual fund. Standard performance data assumes reinvestment of distributions only and does not take into account sales, redemption, distribution or optional charges payable by any securityholder which would have reduced returns. Mutual funds are not guaranteed, their values change frequently and past performance may not be repeated. Please read the prospectus before investing. You may obtain a copy of the prospectus before investing by calling your MD Advisor or the MD Trade Centre at 1 800 267-2332.

MDPIM Bond Pool

Management Report of Fund Performance (December 31, 2023)

Investment Objectives and Strategies

The MDPIM Bond Pool, formerly MDPIM Canadian Long Term Bond Pool, (the "Fund") seeks to provide capital preservation and income production. The Fund invests in a variety of Government of Canada, provincial, municipal, corporate and asset-backed bonds with a full range of maturities. It may also invest in foreign securities.

The Fund employs an active, multiple investment adviser approach to provide capital preservation and elevated income. Using the unique strengths of each investment adviser, the Fund seeks to deliver excess return compared to the benchmark via a combination of income, capital gains, and diversified risk exposures. Primarily focused on Canadian investments, the Fund may invest in a wide range of fixed income securities, including, but not restricted to, high yield fixed income securities, emerging market debt, bank loans, mortgage backed securities, convertible bonds, real estate investment trusts, preferred shares and asset backed securities.

The Fund may not invest in companies that manufacture tobacco or tobacco-related products or cannabis or cannabis related products.

Risk

At times, a portfolio can be subject to any number of investment risks. The risk level of the Fund did not change during the year. Fixed income investments risk, a primary risk for the Fund continues to be managed as the Investment Sub-Advisers diversify by issuer, term-to-maturity, country, credit risk, and sector.

Foreign currency risk is also managed by the Investment Sub-Advisers using derivatives contracts that hedge against losses from exposure to foreign currencies. Descriptions of the investment risks associated with this Fund are detailed in the Simplified Prospectus.

Results of Operations

For the period ended December 31, 2023, the Fund had a total return of 7.5% (Series A).

The Canadian bond market rallied significantly in the final quarter of 2023, pushing the broad Canadian bond indexes into positive territory for the calendar year. The catalysts for the bond rally included inflation continuing its downtrend – the year-over-year inflation rate fell to its lowest level since June – and softer economic data, most notably in the labour market. These developments boosted investor expectations that the Bank of Canada (BoC) was finished with its series of short-term interest rate increases and have now turned its focus on when the BoC will cut rates, starting in 2024. This view was confirmed when the Bank held rates steady at its two interest-rate policy meetings during the quarter.

The Pool benefited from tactically timing duration, entering the year with lower duration than the benchmark before moving longer after yields had risen following the Bank of Canada resuming their rate hiking cycle. Both actively managed interest rate exposures and a diversified allocation to the global opportunistic mandate contributed to the Pool's outperformance versus its benchmark.

At the end of December, the Pool had an average duration of 5.70 years.

As at December 31, 2023, the total net asset value of the Fund was \$7.32 billion, an increase of 10% since the beginning of the year. The increase is due to net investment gain and net contributions, partially offset by income distributions to unitholders.

Recent Developments

STRATEGIC CHANGES

There have been no strategic changes and the Fund continues to be managed in a manner consistent with its investment mandate and is positioned to achieve its long-term objectives. The Investment Advisers have adhered to their investment disciplines and portfolio strategies.

Related Party Transactions

MD Financial Management Inc. is the Manager, Registrar and Trustee of the Fund. As Manager, MD Financial Management Inc. manages the overall business of the MD Family of Funds and the MDPIM Pools (collectively "the Funds") and is responsible for: setting investment objectives, providing and/or retaining the services of third party service providers for fund accounting services, administration services, and promoting the sales of the Fund's units.

The Manager is a wholly-owned subsidiary of The Bank of Nova Scotia (Scotiabank).

1832 Asset Management LP, a subsidiary of Scotiabank, is the portfolio manager of the Funds. MD Financial Management Inc., as Manager, continues to have overall responsibility for the management of the Funds. MD Financial Management Inc. is the registered portfolio manager and provides the discretionary portfolio management services to managed-account clients through MD Private Investment Counsel. 1832 Asset Management LP is responsible for the overall performance of the Funds, the management of fund assets and the selection and monitoring of the Funds' sub-advisors.

The Manager, on behalf of the Fund, may enter into transactions or arrangements with other members of Scotiabank or certain other companies that are related or connected to the Manager (each a "related party"). All transactions between the Fund and the related parties are in the normal course of business and are carried out at arm's length terms.

As Registrar, MD Financial Management Inc. keeps track of the owners of units of the MDPIM Pools, processes purchase, transfer and redemption orders, issues investor account statements, and issues annual tax reporting information.

As the Fund is organized as a Trust, investing in the Fund means purchasing units of the Trust. As Trustee to the Fund, MD Financial Management Inc. holds actual title to the property in the Fund—the cash and securities the Fund invests in—on behalf of the unitholders.

Units of the MDPIM Pools are only available to clients of MD Private Trust Company or discretionary managed account clients of MD Financial Management Inc. MD Management Limited ceased to be the principal distributor of the MDPIM Pools as effective October 29, 2018.

INDEPENDENT REVIEW COMMITTEE

The Manager has established an independent review committee (the "IRC") in accordance with National Instrument 81-107 – Independent Review Committee for Investment Funds ("NI 81-107") with a mandate to review and provide recommendations or approval, as required, on conflict of interest matters referred to it by the Manager on behalf of the Fund. The IRC is responsible for overseeing the Manager's decisions in situations where the Manager is faced with any present or perceived conflicts of interest, all in accordance with NI 81-107.

MDPIM Bond Pool

Management Report of Fund Performance (December 31, 2023)

The IRC may also approve certain mergers between the Fund and other funds and any change of the auditor of the Fund. Subject to any corporate and securities law requirements, no securityholder approval will be obtained in such circumstances, but you will be sent a written notice at least 60 days before the effective date of any such transaction or change of auditor. In certain circumstances, securityholder approval may be required to approve certain mergers.

The IRC has four members: Stephen J. Griggs (Chair), Heather A.T. Hunter, Jennifer L. Witterick and Steven Donald each of whom is independent of the Manager.

The IRC prepares and files a report to the securityholders each fiscal year that describes the IRC and its activities for securityholders, as well as contains a complete list of the standing instructions. These standing instructions enable the Manager to act in a particular conflict of interest matter on a continuing basis provided the Manager complies with its policies and procedures established to address that conflict of interest matter and reports periodically to the IRC on the matter. This report to the securityholders is available on the Manager's website or, at no cost, by contacting the Manager.

The compensation and other reasonable expenses of the IRC will be paid out of the assets of the Fund as well as out of the assets of the other investment funds for which the IRC may act as the independent review committee. The compensation for the IRC is an annual flat fee. Expenses of the IRC may include premiums for insurance coverage, travel expenses and reasonable out-of-pocket expenses.

The Manager is required to advise the IRC of any breach of a condition of any standing instructions. The standing instructions require, among other things, that the investment decision in respect to a related party transaction: (a) is made by the Manager free from any influence by an entity related to the Manager and without taking into account any consideration to any associate or affiliate of the Manager; (b) represents the business judgment of the Manager uninfluenced by considerations other than the best interests of the Fund; and (c) is made in compliance with the Manager's written policies and procedures. Transactions made by the Manager under the standing instructions are subsequently reviewed by the IRC to monitor compliance.

The Manager, in respect of its management of the Fund relied on IRC standing instructions regarding related party transactions as set out below:

- Paying brokerage commissions and spreads to a related party for effecting security transactions on a principal basis on behalf of the Fund;
- Purchases or sales of securities of an issuer from or to another investment fund managed by the Manager;
- Investments in the securities of issuers for which a related underwriter acted as an underwriter during the distribution of such securities and the 60-day period following the completion of such distribution;
- Purchases of securities of a related party;
- Investment Advisor Monitoring and Oversight

Management Fees

No management fee is charged in respect of units of the Fund. Investors in these units have agreed to pay a managed account fee directly to MD Financial Management Inc.

Past Performance

The following bar chart shows the Fund's annual performance for each of the years shown, and illustrates how the Fund's performance changed from year to year. The chart shows, in percentage terms, how much an investment made on the first day of each calendar year would have grown or decreased by the last day of each calendar year.

The performance information assumes that all distributions made by the Fund were reinvested in additional units of the Fund and does not take into account sales, redemption, distribution or other optional charges that would reduce returns. How the Fund has performed in the past does not necessarily indicate how the Fund will perform in the future.

YEAR-BY-YEAR RETURNS

Series A

ANNUAL COMPOUND RETURNS

The following table shows the Fund's historical annual compound returns for the past one-, three- and five-year periods ended on December 31 and since inception of the Fund as compared to the return of the benchmark, the FTSE Canadian Universe Bond Index.

	1 year	3 years	5 years	10 years	Since Inception
MDPIM Bond Pool	7.47%	-1.84%	2.97%	4.34%	4.57%
FTSE Canada Universe Bond Index	6.69%	-2.80%	1.30%	2.42%	

Management uses the FTSE Canada Universe Bond Index as the benchmark for this Fund because it represents the returns on Canadian bonds with greater than one year to maturity. Although index returns are hypothetical—as they do not reflect the true cost of owning or managing the underlying bonds—they are one of several useful indicators. By comparing the Fund's performance to the movements of the benchmark, management is able to assess how the Fund is doing. Some short-term deviations can signal the need for change while others confirm the expectations of a longer-term strategy. If management were to ascertain that a fund's over- or underperformance was the result of excessive risk-taking or deviation from the investment mandate, we would, on behalf of all our unitholders, address these issues with the Investment Adviser and make changes if necessary.

MDPIM Bond Pool

Management Report of Fund Performance (December 31, 2023)

The Pool gained 7.47% for the full year 2023. Both actively managed interest rate exposures and a diversified allocation to the global opportunistic mandate contributed to the Pool's 78 bps outperformance versus its benchmark.

¹ This information is derived from the Fund's audited annual financial statements.

² Net assets and distributions are based on the actual number of units outstanding at the relevant time. The increase (decrease) from operations is based on the weighted average number of units outstanding over the financial year. This table is not intended to be a reconciliation of beginning to ending net assets per unit.

³ Distributions were paid in cash or reinvested in additional units of the Fund, or both.

Net assets per unit	\$ 10.96	\$ 10.55	\$ 12.10	\$ 12.71	\$ 11.99

¹ This information is provided as at December 31 of the year shown.

² The management expense ratio ("MER") is based on total expenses for the stated period (excluding commissions, withholding taxes and other portfolio transaction costs) and the Fund's proportionate share of the MER, if applicable, of exchange traded funds ("ETFs") in which the Fund has invested, expressed as an annualized percentage of daily average net asset value during the period.

³ The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net assets during the period.

⁴ The Fund's portfolio turnover rate indicates how actively the Fund's portfolio advisor manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year. The higher a fund's portfolio turnover rate in a year, the greater the trading costs payable by the fund in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a fund.
